## Technical Skills

---

### **Programming Languages**

HTML, CSS  
C#  
ASP.NETCORE  
ASP.NETCOREMVC  
Dapper  
Entity Framework  
JavaScript  
Node.js  
NestJS  
TypeORM  
Angular  
Typescript  
Java  
Microsoft SQL Server(MSSQL)  
RESTfulAPI,JSON,XML,YAML  
Authentication and Authorization  
Object Oriented Analysis and Design

### **Development Tools**

xUnit, Selenium WebDriver, Jest,  
Playwright, Microsoft Azure DevOps,  
Git/GitHub, Jira, Postman, Visual Studio,  
Visual Studio Code

### **Cloud Application Management**

Amazon Web Services (AWS), EC2  
Virtual Machines, Microsoft Azure,  
Google Cloud Platforms,

### **Problem-Solving**

Analytical Thinking, Logical Reasoning,  
Root Cause Analysis, Multitasking  
Management, Design Documents,  
Standards, Configuration Plans, User  
Journey Mapping, Story Boarding,  
Creating Mockups and Wireframes,  
Application Usability Design

### **Methodologies and Management**

Agile, Scrum, Project Management, Web  
Content Accessibility Guidelines

**Well Versed Solutions, Houston, TX**  
**Full Stack Software Developer**

June2021–Current

**For .Net Core and MVC project**

- Maintain and Support existing application for internal use.
- Designed and developed API end points for internal application.
- GET, POST, PUT and DELETE requests types used.
- Pagination and Order techniques used for some of the API end points.
- Added new or Updated SQL tables, views or stored procedures for application coding needs.
- New Controller, Models and Views added for MVC project.
- SQL Database project added to the application solution.
  - Tables, Views and Stored Procedures added
  - Post Deployment added for Publish
- Migrated Application Databases to another cloud server.
- Backend project migrated to .Net Core and MVC from ASP.Net project.
- POSTMAN Collections created for API calls to which created for testing the API calls.
- Swagger implemented to the new project.

**For Angular and NestJS project**

- Nx Workspace used for backend and frontend applications.
  - Reusable libraries created for backend and angular
  - Such as User, Email Send, Blogs, Subscription and Quote
- Mock Api application created for local use.
- Jest Test and Playwright included to project for e2e and unit tests.
- Angular project has 13 components and 2 modules.
- Each component connects to backend api call with services files.
- Component pages have HTML and custom design styles.
- Development, Local and Production environments created for deployments

**Technologies:** HTML, CSS, JavaScript, C#, TypeScript, Bootstrap, Microsoft SQL Server, RESTful APIs, ASP.NET Core, Node.js, NestJS, ASP.NET MVC, Angular, xUnit, Selenium WebDriver, Jest, Playwright, Azure DevOps Services, Git, Amazon Web Services (AWS), Microsoft Visual Studio, Microsoft Visual Studio Code, Agile Methodologies, Software Development

---

**Mansel Information Services, Turkey, Istanbul**  
**Full Stack Software Developer**

March2019–June2021

- Maintain and Support existing application for internal use.
- Added new UI pages for existing application.
- UI pages and backend projects updated to deliver another requests from the business.
- Created new Schedule Tasks for Microservices project to move data or send automatic emails.
- Added new data source to backend projects and pulling new data to existing UI pages.
- Added new or Updating SQL tables, views or stored procedures for application coding needs.
- UI pages and backend projects updated to deliver another requests from the business.
- Created new backend service requests for receiving live data from third party companies cloud systems.
- Created and Reviewing Pull Requests for backend and database scripts.
- Reviewed Splunk or Cloud logs if there is any issue to solve.

**Technologies:** HTML, CSS, JavaScript, C#, Bootstrap, Microsoft SQL Server, RESTful APIs, ASP.NET Core, Node.js, Express.js, ASP.NET MVC, Angular, xUnit, Selenium WebDriver, GitHub, Azure DevOps Services, Git, Amazon Web Services (AWS), Microsoft Visual Studio, Microsoft Visual Studio Code, Shopify, WordPress, Agile Methodologies, Software Development
